

TECHNICAL DATA SHEET

NATURA-SEAL

QP-1471

PRODUCT DESCRIPTION	<p>Matte-Look Nano-Ceramic Clear Water Proofing. QproTECH Natura-Seal QP-1471:</p> <ul style="list-style-type: none"> • is a single component solution, ambient cures and has extreme hydrophobic properties. • creates a hydrophobic barrier on pavers, brick, concrete, aggregate and natural stone. • creates an intrinsic bond to the substrate material penetrating deep into substructure. • will reduce deterioration caused by water absorption such as, spalling, cracking, pitting, staining and salt absorption, as well as the formation of mold and mildew. 			
SUGGESTED USES	<p>Q-Protech Natura-Seal is perfect for driveways, walkways, stairs, pool decks and patios, garage floors, retail, restaurant and warehouse floors and walls, basement floors and walls and more.</p>			
PROPERTIES	Colour	Clear	Estimated Coverage Rate (porous substrates)	125-175 sq./ft. per gal. *
	% of Solids	40%	Estimated Coverage Rate (dense substrates)	250 sq./ft. per gal. *
	Odor (liquid)	Slight Solvent	Dry to Touch (time @ambient)	1 to 2 hrs ** (average)
	Odor (cured)	None	Re-coat Time	1 to 2 hrs.
	V.O.C.	Low V.O.C.	Foot Traffic	12 to 24 hrs.
	RoHS	Compliant	Wheeled Traffic	24 to 48 hrs.
	REACH	Compliant	Application Temperature	45° to 85°F
	Halogens	None		

(* absorbency of the solution into the substrate will vary results)
(** warm ambient temperature may help to reduce the dry time)

The manufacturer is not responsible for the use and application of this material. At the time of this publication all information contained within was determined to be valid and true. It is up to the end user determine the suitability of this product for their own application. No warranty is written or implied regarding application and use of this material.
